

UserWay Tutorial – Install on Moodle  
<https://userway.org/platforms/moodle>

Audio	Visual
<p>Hi everyone. In this tutorial, I'm going to show you how to install UserWay widget in Moodle. You must follow all these steps to get the code snippet that you will later paste into Moodle. Some steps are customization options that you can actually skip and go through them later. But in this tutorial, I will show you all of them.</p>	<p>Woman wearing a UserWay shirt is speaking, her video is in a small box in the lower right corner of the screen. This box remains throughout the video.</p> <p>The main screen shows a page from the UserWay website</p>
<p>So, to get your code, visit UserWay.org and click on "Get the Widget."</p>	<p>The cursor moves to the upper right corner of the UserWay website and clicks the "Get the Widget" button next to the UserWay icon. Step 1 of the code generation questionnaire appears.</p>
<p>Step number one is, add your website address. Also, don't forget to agree to the terms of service and privacy policy. Then click on "Next" to step number two.</p>	<p>The example website's URL appears in the "What's your website's address?" window. The cursor clicks the "I agree" checkbox and the "Next" button.</p>
<p>Add your name, last name, and your email. Click on "Next" to step number three.</p>	<p>Step 2 of the questionnaire appears. Sample values appear in these form windows. The cursor clicks the "Next" button in the lower right corner. The form advances to the next page. The cursor clicks the "Next" button.</p>
<p>Select your preferred icon. You choose among these four. Let's continue to step number four.</p>	<p>Step 3 appears. The cursor highlights the four icon choices, leaving the first (default) option selected. The cursor clicks the "Next" button.</p>
<p>Choose the size. No matter which size you choose, mobile devices will always display the smaller size. Then click on "Next."</p>	<p>Step 4 appears, showing the two icon size choices. The cursor hovers over the smaller icon, then clicks the "Next" button, leaving the larger (default) icon size selected.</p>
<p>Step number five, you can use this color picker to change the color of your button. When you're done, click on "Next" to step number six.</p>	<p>Step 5 appears, showing a spectrum bar and swatch selector. The cursor clicks the "Next" button.</p>

## UserWay Tutorial – Install on Moodle

<https://userway.org/platforms/moodle>

<p>Select where you would like to place your button. There are eight different positions on your site. Let's continue to step number seven.</p>	<p>Step 6 appears, and the cursor highlights some of the possible icon positions around the perimeter of a webpage layout. The cursor clicks the "Next" button, leaving the upper right (default) setting selected.</p>
<p>You can let the widget to automatically detect the language of your visitor, or if you want to force the widget to display in a specific language, then open this list and select your language.</p>	<p>Step 7 appears. The cursor highlights the "Language" field, in which contains the default text, "Auto-Detect Language." The cursor clicks the dropdown arrow in the "Language" box and a list of languages appears.</p>
<p>Let's continue to step number eight.</p>	<p>The cursor clicks out of the dropdown menu, restoring the default selection and clicks the "Next" button.</p>
<p>Making your site accessible is very important, but you also need an accessibility statement. If you don't have one, don't worry about it, because we can help you with that. Just leave "No/I Don't Know" selected, and we'll help you with that later.</p>	<p>Step 8 appears, asking if the user's site already contains an accessibility statement. "No/I Don't Know" is the default selection. The cursor clicks the "Next" button.</p>
<p>Let's continue to step number nine. If you're interested in advanced custom options for this widget, then I recommend you to click on "I'd like to learn more" for more information.</p>	<p>The form advances to Step 9, displaying an option to learn more about a white-label or custom-branded version of the UserWay widget. The cursor clicks the "Next" button.</p>
<p>Let's scroll down and click on "Next" to our last step.</p>	<p>The cursor scrolls down to click on the "Next" button.</p>
<p>Here's the code. Just click on "Copy," and I'll see you in Moodle</p>	<p>Step 10 appears, showing a window containing the UserWay script. The cursor clicks on the "Copy" button in the window's upper right corner. The code is highlighted.</p>
<p>I'm in Moodle dashboard. Code is copied to my clipboard. And now, I'm going to show you where you have to paste this code.</p>	<p>The screen transitions to the example site's Moodle management page.</p>
<p>So, click on "Customize This Page." And now, on the left you can "Add a Block."</p>	<p>The cursor clicks on the "Customize This Page" button in the upper right. The cursor clicks the "Add a Block" link from the left menu. That window appears.</p>

UserWay Tutorial – Install on Moodle  
<https://userway.org/platforms/moodle>

<p>So, you want to add an HTML block.</p>	<p>The cursor clicks the HTML item in the window.</p>
<p>Add a custom block.</p>	<p>The cursor clicks the “Add a Custom Block” button. A new window appears.</p>
<p>So, here it is, the new HTML block. Then click on the gear to configure our block.</p>	<p>The dashboard reappears. The cursor highlights the “New HTML Block” panel in the upper right. The cursor clicks on the gear icon in the panel. The cursor clicks the “Configure (new HTML block)” item from the dropdown menu. That window appears.</p>
<p>First thing is, add a title to the block. The title will display so it will be easier for you to identify each block. So, our title is “UserWay.” Let’s click on “Show Advanced Options.”</p>	<p>The cursor types “UserWay” The cursor clicks on the Advanced Options (down arrow) icon in the window’s navigation bar.</p>
<p>And then, click on the HTML icon.</p>	<p>The cursor clicks the HTML <code>&lt;/&gt;</code> icon.</p>
<p>So, I’m just gonna delete this.</p>	<p>The cursor deletes the default code tags in the block window.</p>
<p>And now, ready to add the code.</p>	<p>The cursor pastes the UserWay code into the panel.</p>
<p>We’ve been automatically redirected to the dashboard.</p>	<p>The cursor clicks the Save Changes button below the panel. The dashboard page appears.</p>
<p>And here’s our widget. If you can see the widget properly, this means that you have installed it correctly,</p>	<p>The cursor clicks the UserWay widget icon in the upper right. The Accessibility menu appears.</p>
<p>But also, there’s another way to verify this installation. Let’s go back to userway.org and I’ll show you how to do it. In this last step, you can click on “Let’s Verify” to double-check the installation. But again, if you see the widget, that means that everything’s OK.</p>	<p>The screen returns to the UserWay site page with the script highlighted in Step 10. The cursor highlights the “Let’s Verify” button.</p>
<p>So, what you can do is click on “Skip.” And here’s your accessibility statement. This is a template that we’re sharing with you that you can copy. You can edit. You can add your own details and paste it on your site.</p>	<p>The cursor clicks the “Skip” button next to the “Let’s Verify” button. The accessibility statement appears.</p>
